

SHUNYA OS — Device Experience & Founder Experience Audit

Date: July 30, 2026 **Status:** CANDIDATE FOR FOUNDER REVIEW **Build:** Latest valid commit `76b48eb` (Phase Z3) **Production:** <https://shunyaos.com> (HTTP 200)

PART 1: HOMEPAGE-SPECIFIC AUDIT

Within 10 seconds

Question	Answer	Evidence
Can I understand what SHUNYA is?	✓ YES	"Your business is not a collection of tools. Your business is one living system."
Can I find Sign Up?	✗ NO	No "Sign up" or "Create account" link on the homepage. "Begin" button scrolls to company name input, does not navigate to signup.
Can I find Login?	✗ NO	No "Sign in" or "Login" link anywhere on the homepage.
Do I know what happens next?	⚠ PARTIAL	"Begin" button suggests action but scrolls in-page rather than navigating to auth.

Within 30 seconds

Question	Answer	Evidence
Do I trust SHUNYA?	✓ YES	Human moments, pricing transparency, documentation, professional design
Do I understand why it is different?	✓ YES	"Not CRM. Not ERP. Not a chatbot." — clear differentiation
Do I want to create an account?	⚠ PARTIAL	Yes, but I can't find how to do it from the homepage

Homepage PASS/FAIL: FAIL — Missing Sign Up / Login links means the homepage fails the 10-second test.

PART 2: DEVICE VIEWPORT AUDIT

Desktop Viewports

Viewport	H Overflow	Text Overflow	Nav	Sign In	Score
1920×1080	None	0	✓ Desktop nav	✗ Missing	8/10
1728×1117	None	0	✓ Desktop nav	✗ Missing	8/10
1512×982	None	0	✓ Desktop nav	✗ Missing	8/10
1440×900	None	0	✓ Desktop nav	✗ Missing	8/10
1366×768	None	0	✓ Desktop nav	✗ Missing	8/10
1280×720	None	0	✓ Desktop nav	✗ Missing	8/10

Tablet Viewports (Portrait)

iPad Pro 13" (1024×1366) | Metric | Value | |-----|-----| | Scroll width | 1265px (overflow: 241px) | | Text overflow | 0 | | Nav visible | ✓ Desktop nav (no hamburger) | | Sign In link | ✗ Missing | | Begin button | Visible ✓ | | **Score** | **6/10** — horizontal overflow, no mobile nav | | **Issues** | Page doesn't fit viewport width; no tablet-specific layout |

iPad Air (820×1180) | Metric | Value | |-----|-----| | Scroll width | 1265px (overflow: 445px) | | Text overflow | 0 | | Nav visible | ✔ Desktop nav (no hamburger) | | Sign In link | ✕ Missing | | **Score** | **5/10** — significant horizontal overflow |

iPad Mini (744×1024) | Metric | Value | |-----|-----| | Scroll width | 1265px (overflow: 521px) | | **Score** | **4/10** — severe horizontal overflow |

Mobile Viewports (Portrait)

iPhone 15 (393×852) | Metric | Value | |-----|-----| | Scroll width | 1265px (overflow: 872px) | | Text overflow | 6 elements | | Body font size | 16px (no scaling) | | Desktop nav visible | ✔ (no hamburger) | | Begin button visible | ✔ | | Pricing visible in fold | ✕ | | Sign In link | ✕ | | **Score** | **3/10** — severe overflow, no mobile layout, no responsive nav |

iPhone SE (375×667) | Metric | Value | |-----|-----| | Scroll width | 1265px (overflow: 890px) | | **Score** | **2/10** — extreme overflow, tiny viewport |

Scoring Summary

Device	Layout	Readability	Navigation	Interaction	Visual	Performance	Found. Conf.	Total
Desktop 1920×1080	8	9	7	8	8	9	7	8.0
Desktop 1440×900	8	9	7	8	8	9	7	8.0
Desktop 1280×720	8	9	7	8	8	9	7	8.0
iPad Pro 13" L	7	8	6	7	7	9	6	7.1
iPad Pro 13" P	5	6	4	5	5	8	4	5.3
iPad Air P	4	5	3	4	4	8	3	4.4
iPad Mini P	3	4	2	3	3	8	2	3.6
iPhone 15	2	3	1	2	2	7	2	2.7
iPhone SE	2	2	1	1	2	7	1	2.3

Anything below 9/10 requires fixes. Every device fails.

Key Device Issues

- No responsive CSS** — The page has a fixed width of ~1265px. No @media queries for mobile/tablet.
- No hamburger menu** — Desktop nav dots persist on mobile, completely unusable.
- No mobile viewport meta** — Already set to `width=device-width` but the CSS doesn't use it.
- Text overflow** — 6 elements overflow on iPhone 15.
- No sign-in/sign-up links** — Missing on every viewport.
- Font size doesn't scale** — 16px body font on all devices.

PART 3: FOUNDER EXPERIENCE AUDIT

Journey Recording

Step	Time	Clicks	Result	Confusion	Felt Finished?
1. Discover SHUNYA	0s	0	Homepage loads with human moments	None	✔
2. Decide to sign up	~30s	2	Found signup via direct URL (/auth/signup)	Couldn't find from homepage	✕ No path from homepage

3. Create an account	~60s	4	Filled name/email/password, submitted	"Check your email" — no actual verification	⚠ Missing verif.
4. Create organization	~90s	6	Filled company name, selected type, created	None	✓
5. Enter workspace	~120s	10	Workspace loaded with Executive Home	None	✓
6. Create first customer	~150s	12	Created "Acme Corp Customer" (Document)	None	✓
7. Ask SHUNYA something	~180s	14	"What are my top priorities?" → "I see 3 objects, 3 active commitments, 3 recent events"	Expected business-specific answer	⚠ Generic response
8. Log out	~190s	15	Navigated to /logout → redirected to login	None	✓
9. Return after fresh session	✗	—	SessionStorage cleared; SPA shows public homepage	Would need to re-login	⚠ Not tested
10. Confirm data persists	✗	—	Data in DB, but SPA onboarding shown again	SPA shows onboarding again	⚠ Known issue

Founder Experience Score: 6/10

Issues Found

#	Issue	Severity
1	No sign-up path from homepage	HIGH
2	Email verification not implemented	HIGH
3	SessionStorage doesn't persist across sessions	MEDIUM
4	Onboarding re-shown on return (sessionStorage cleared)	MEDIUM
5	AI response was generic, not business-specific	MEDIUM
6	Profile menu didn't open (accessibility issue)	LOW
7	Identity shows "sid_7" instead of user name	LOW

PART 4: LANGUAGE CANON COMPLIANCE

Term	Used?	Where
Customer waiting	✓	"CUSTOMERS WAITING" in homepage hero
Supplier replied	✗	Not used anywhere
Follow-up due	✓	"FOLLOW-UPS DUE" in homepage hero
Invoice overdue	⚠	"PAYMENTS OVERDUE" (close but not exact)
Proposal viewed	✓	"PROPOSALS VIEWED" in homepage hero
Approval waiting	✗	Not used
Draft ready	✗	Not used
Meeting tomorrow	✗	Not used
Payment received	✗	Not used
Team waiting	✗	Not used
"Objects"	⚠	Used in workspace context panel ("CURRENT OBJECT", "New Object")
"Runtime"	✗	Not used in UI
"Active Objects"	✗	Not used in homepage

PART 5: CRITICAL FIXES APPLIED

--	--	--	--

Fix	Before	After	Status
OrgMember auto-creation on login	Executive Home 401	Works with real data	✓ Deployed
Gradient fix	Not tested	Not tested	⌛

PART 6: REMAINING CRITICAL GAPS

Priority	Issue	Fix Needed
P0	No Sign Up / Login links on homepage	Add nav links to <code>/auth/signup</code> and <code>/auth/login</code>
P0	No responsive CSS for mobile/tablet	Implement <code>@media</code> queries or CSS container queries
P1	Email verification not implemented	Add <code>verify_token</code> , <code>verified</code> field, and email sending
P1	No "Forgot password" link on login page	Add link to <code>/auth/forgot-password</code>
P2	Onboarding re-shown on return	Store completion flag in <code>localStorage</code> (not <code>sessionStorage</code>)
P2	AI response too generic	Improve AI context/prompting for business-specific answers
P3	Missing human moments in workspace	Show "Customer waiting", "Follow-up due" in context panel

CONCLUSION

SHUNYA is now functional for a founder who knows the URLs.

The core flow works: - Homepage ✓ - Signup ✓ (if you know `/auth/signup`) - Login ✓ - Onboarding ✓ - Workspace ✓ (Executive Home with real data, 3 objects, 3 commitments) - AI ✓ (responds to questions) - Logout ✓

But the experience is not yet complete for a brand-new visitor: - No way to discover signup/login from the homepage - No mobile support whatsoever - No email verification - No "forgot password" flow accessible from login

Founder Gate:

"I ran my business on SHUNYA today." — Nishesh, you are the only one who can declare this.

Audit conducted by Hermes Agent under Directive Zero. Browser truth overrides all other evidence.
