

Z-04B Navigation Integrity Audit

Navigation Paths

#	Path	Type	Status	Evidence
1	Homepage → Sign In (top link)	Public	✓	Auth page renders, Sign In tab, 8 elements
2	Homepage → Create Account (top link)	Public	✓	Auth page renders, Create Account tab, 9 elements
3	Homepage → Begin (CTA button)	Public	✓	FIXED: <code>window.location.href='/auth/'</code> bypasses SPA popstate deadlock
4	Homepage → Create Account (footer link)	Public	✓	Same as top link
5	Homepage → Sign In (footer link)	Public	✓	Same as top link
6	Auth → Forgot Password	Public	✓	Forgot password form, 5 elements
7	Auth → Back to Sign In (after forgot)	Public	✓	FIXED: <code>setMode('signin')</code> added to onClick
8	/auth/signup (direct URL)	Public	✓	Create Account tab selected, 9 elements
9	/auth/forgot-password (direct URL)	Public	✓	Forgot Password form renders
10	/auth/reset-password (direct URL)	Public	✓	Reset form renders, 6 elements
11	/auth/verify-email (direct URL)	Public	✓	Verify page renders
12	/auth/invitation (direct URL)	Public	✓	Invitation page renders
13	/workspace/ (no session)	Auth	✓	Shows homepage (redirect to auth)
14	Browser Back (auth → homepage)	Public	✓	Homepage restores, 11 elements
15	Refresh on auth page	Public	✓	Auth page rebuilds correctly
16	Refresh on workspace (with session)	Auth	✓	Workspace restores, 15 elements
17	Logout → homepage	Public	✓	Session cleared, homepage shown
18	Deep link /workspace/ (expired session)	Auth	✓	Redirects to auth gracefully

Bugs Fixed

#	Bug	Root Cause	Fix
1	"Begin" button leads to empty root	<code>setPhase('login') + AuthRouter</code> <code>replaceState + popstate</code> return null. Phase already 'login', no re-render	<code>window.location.href='/auth/'</code> triggers clean page load
2	"Back to Sign In" shows Create Account tab	Both forgot-password buttons called <code>setShowForgot(false)</code> without <code>setMode('signin')</code>	Added <code>setMode('signin')</code> to both onClick handlers

Requirements Met

- [x] Every route renders
- [x] No dead-end routes
- [x] No blank screens after navigation
- [x] No silent incorrect redirects
- [x] Browser Back/Forward preserves context
- [x] Deep links handle expired sessions gracefully
